Missionary Volunteer Program

Sept 2026

"Habari" (Hello) from Tanzania,

The weeks pass quickly with us having a full schedule over here.

We're really loving the ministry with both the kids and young people. They are bright, polite, clever and they enjoy learning. Their singing is especially wonderful. We're thankful for their tender hearts and teachable spirits.

This past month, several young people have trusted in Christ through the ministries of Saturday's Bible Club and the public school Bible Class ministry. Every Saturday there are about 10 different Bible clubs held around town. We teach the class held at the church and Joanie tells the Bible story. This month the groups were gathered together for an exciting Kids' Day at church with games, contests, activities, challenges, Bible verse memorization, a video, plus preaching and a meal. I think there were about 150 attending, and there were many first-time visitors. I was blessed to bring the message, and afterward, 25 kids trusted in Jesus!

Another exciting update is, Joanie and I began speaking at a weekly Bible class at the public middle school. The first week there were 15 students; attendance was down due to the school's testing schedule, etc. The next week we had 96 students—all in one class. Joanie did a great job teaching (a series about Joseph) and she gave her salvation testimony. Between the two classes, about 28 sweet school kids trusted in the Lord! Again, the class was respectful and attentive the whole time, and they sang several songs, beautifully, in Swahili.

September also allowed me the opportunity to preach twice for another missionary friend at Grace Baptist Church, across town; Pastor Mshama Kinyonga. They had a great spirit and we loved visiting there.
Here at Faith Baptist Church, Morogoro, I preached several times (Sunday/Wednesday), we taught each Sunday early service the English (Students') Bible class, plus I taught several Boys' Character classes, and the Maasai warrior Bible studies. Also, Joanie spoke at a Ladies' Meeting held in a nearby village area. Many of those visiting ladies returned to church on Sunday and several were saved! God is always so good!

One weekday we had a nice staff fellowship at a local coffee and juice café in town.

We have a busy calendar for October and are looking forward to several special Sunday promotions. I should be visiting a newer remote village church plant this month with Missionary Montana Morrow (a staff member), and pay a visit to the community feeding center that the church runs, that provides daily meals for under-nourished children.

We're SO BLESSED to serve here. Thank you for your prayers and contributions that make our ministry possible. We thank the Lord for your tender heart for others around the world!

For a Greater Harvest, *Darrell and Joanie Bolton*
