

To the pastor and the church ,

Dear brother and sisters . I am glad when writing this letter . I praise God because of you we are preaching the gospel day by day people are members are increasing by 50/100 as they had decreased. Because they run away when we ask them to help to build the church but after building they are now coming back. We thanked God who helped us to build permanent but our church in Lamu County have closed because civilians ran away because terrorists attack every time the villages and others run away when one home of a member of our church was killed and their house was burned down so the pastor escaped just by good luck he was not shot so pray for us because that is political chaos the church building is there but all village escaped that the rest churches are still progressive people are getting saved everywhere but just prayer are good because God saved me severally from dangerous Al-Shabaab terrorists but I will continue .

Yours Missionary Steve Karanja
